Work Experience

JRK Consulting Service | UI & UX Developer   **Aug 2019 – Dec 2023**

- Created and built responsive websites and web applications tailored to the needs of diverse clients.
- Worked with modern web technologies, including HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, jQuery, React, and WordPress.
- Built and optimized user-friendly, high-performance web solutions tailored to client needs.
- Provided ongoing support, updates, and troubleshooting to ensure smooth functionality.

Foyer Tech| UI & UX Developer   **Jan 2024 – Jan 2025**

- Developed user interface designs utilizing HTML, CSS, Bootstrap, and JavaScript technologies.
- Maintained existing websites by making changes to content, layout, or style as needed to meet customer requirements.
- Provided technical support to users experiencing problems with websites or applications developed by the team.
- Integrated REST APIs to enable seamless data communication between the front-end and back-end, creating dynamic and interactive web experiences.

Bus Booking System – MERN Stack(Freelancer)

- Designed and developed a complete online bus ticket booking system for users and bus operators.
- Implemented authentication for users and operators using JWT.
- Created a **Bus Operator Panel** for adding routes, managing schedules, and tracking bookings. Built a **User Booking Portal** with real-time availability, seat selection, and secure checkout.
- Integrated backend REST APIs to manage buses, routes, and transactions. Deployed the frontend to Vercel and backend to Render for scalable hosting..
